

ENERGISER ACTIVITIES YEAR 9-10

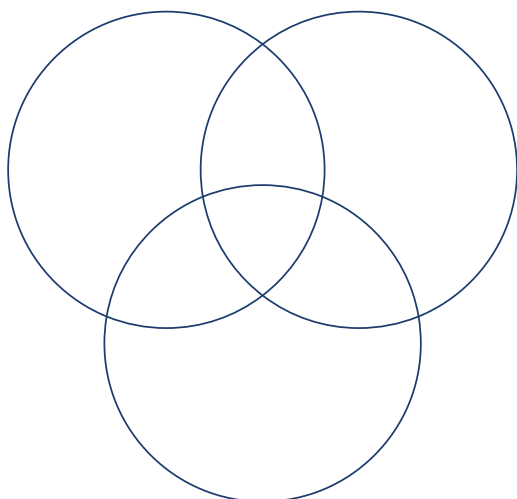

At Maths Pathway, we use Energisers to invigorate the minds of students before or during a maths lesson. We know it can be hard to motivate kids to do their homework or begin a homeschool class, so try out these activities as a first step or to re-engage your kids half way through an activity.

Venn

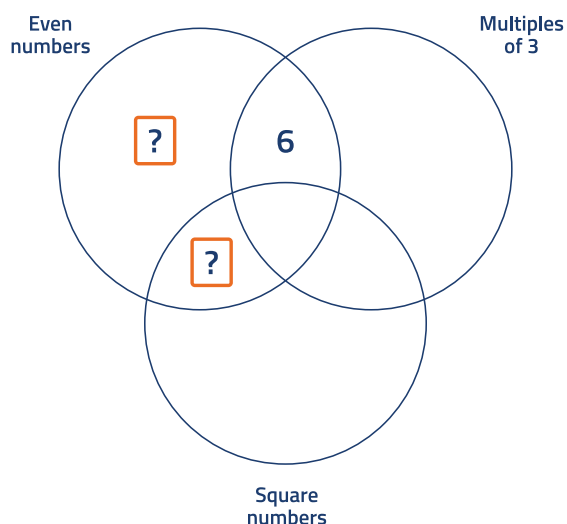

This activity from the Venn Energiser series is the perfect way to warm up our maths minds!

Activity one Whole Number Properties

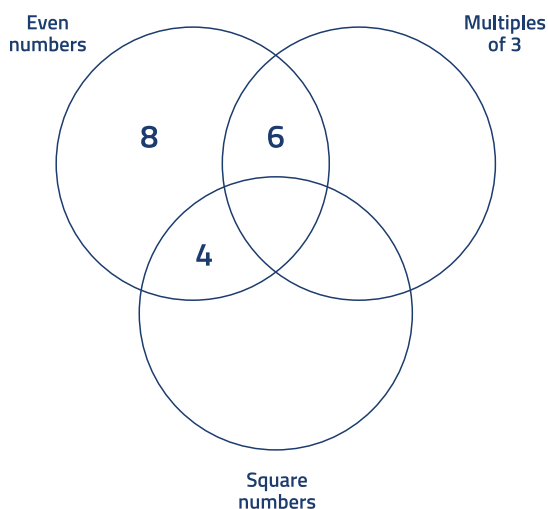

Step 1: Draw out a Venn diagram

Step 2: Fill in your Venn diagram

Step 3: Some example answers include:

Now it's your turn!

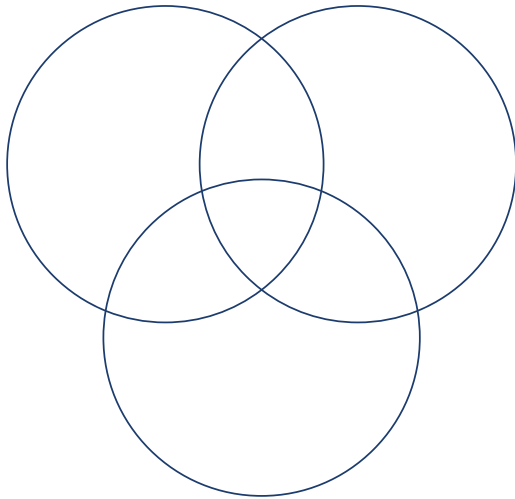

How many sections can you fill in? And what areas might be impossible?

Activity two

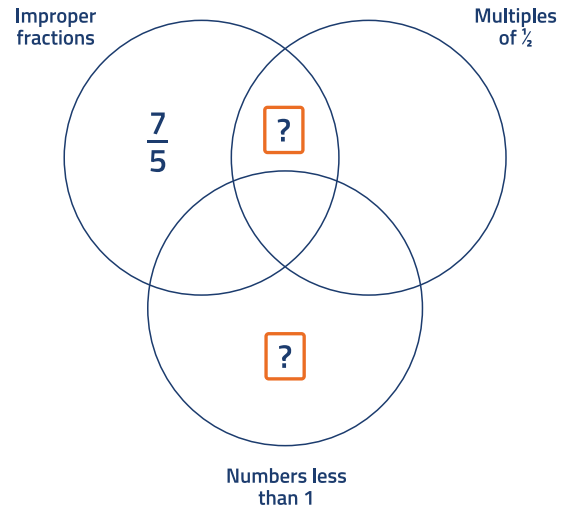

Fraction Properties

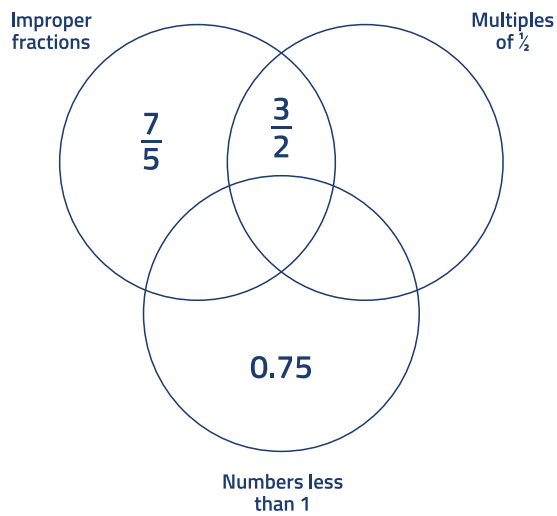

Step 1: Draw out a Venn diagram

Step 2: Fill in your Venn diagram

Step 3: Some example answers include:

Now it's your turn!

How many sections can you fill in? And what areas might be impossible?
